Top of the Line Fabric with Superior Durability and UV Protection

Taupe

Brown

Our exterior rainfly is a high-performance outdoor fabric engineered for the most demanding applications. The solution-dyed fiber provides superior durability and UV protection, while offering exceptional color fastness, shrink and stretch resistance. Boasting up to 1.5x the strength of leading fabrics.

UV Resistant: Engineered to withstand long sun exposure without losing strength

Cold Crack Resistant: Lightweight, high tensile strength synthetic fiber designed for protection

Mold and Mildew Resistant: Treated polyester engineered to prevent the growth of fungi and bacteria in damp conditions
